

Mammut Oil 25

Food safe product for dissolving sugar from chains etc.

Description

Mammut Oil 25 is a food grade product which is specially developed to dissolve sugar from chains, slides and moulds. It has been developed specially for the confectionary market.

Applications

Chains and moulds where the build up of sugar normally is a problem. Working temperatures: -18 to 240 °C.

Benefits

- Excellent performance
- Food grade
- Rust preventing and easy to rinse off
- High temperature resistance (in mixers for example)
- Does not become rancid over time
- Insensitive to light
- Acts as a release agent on tracks and moulds
- Easy to apply by brush, drip or spray

Typical performance data

Density @ 20 °C, kg/dm ³	ASTMD 129885	1.030
Flash point, °C	ASTMD 9385	>100
pH @ 20 °C		6.1
Viscosity @ 40 °C, cSt		25
